

ACCESSORY PACKAGE CONTENTS and INSTRUCTIONS

CAPFILTERS WITH CAPS

Screw cap onto ink jug with filter in the bottle. Place black cap on pour spout when not in use. You can also put them on the return hose to filter ink when pumping.

SPATULA STICKS

These spatulas are made for the larger presses and are used to agitate ink in the fountain and scrape ink out of fountain when run is complete. Notches on the side are to rest the spatula on edge of fountain when not in use.

RUBBER STOPPERS

Rubber stoppers are used in the drain of the liner to stop the ink from flowing out until you are ready to drain the liner. Screw in top of stopper aides in easy removal.

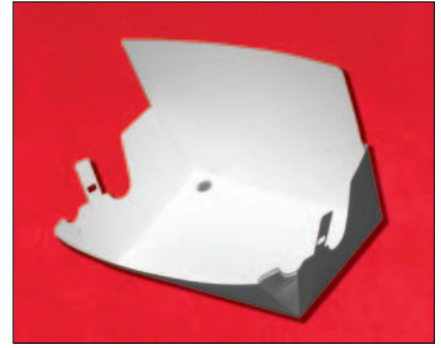

INK PAIL COVERS (5 GAL.)

These disposable lids fit onto the 5 gal. pail of ink when you are pumping. We also have 1, 2 & 2.5 gal. covers available. They are perforated for easy insertion of pump tubes and hoses. Fold tabs up and insert into top of pail.

GENERIC LINERS

DIP Company has an extensive line of drip trays and liners made from this poly-coated paper stock to fit a variety of presses. Most of the liners are designed to work with a DIP Company stainless steel retainer. Most liners come with a drain spout to attach a drain hose.

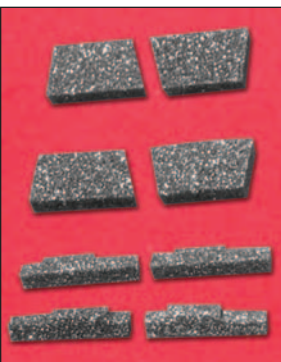

STIR STICKS

These smaller stir sticks are used on the smaller presses, such as the Webtron 650 and 750 presses. The longer part of the stick reaches under the rollers to agitate the ink and to scrape the fountain out when run is complete.

C2000 WIPERS

New disposable wipers that fit in the C2000 Disposable liner system are available for most presses. Very efficiently wipes the ends of the rollers keeping the ink in the pan, off the journals. It also allows for much faster press speeds.

FOAM WIPERS

Older style foam wipers used on the older DIP Liner systems. Wipers come in a variety of sizes for different press models.

This is a sampling of DIP Company products for the flexographic printing industry. Several of these products are designed for use with DIP Company liners and retainers. We have starter kits available for all our products that you can try free of charge for 30 days. Call today, so we can discuss your needs and you can receive a starter kit.*
